

Monthly Cleaning List

Additional Monthly Cleaning

Checklist:

**In addition to Daily and Weekly tasks, include the following:

- Wipe down walls behind the tub and under the tub.
 - Wipe down ceiling
 - Wipe down walls around the shelf area
 - Wipe down Shelf
 - Wipe down A/C Shroud
 - Check for hair on the equipment board.
 - Blow out or vacuum the front cab
 - Vacuum inverter filter (but do not remove it)
 - Check both the Fluff filter(if being used) and HanV Dryer for hair buildup on fins and filter (The filter does not need to be removed)
 - Vacuum behind the cabinet (it might be a little difficult to reach depending on the person cleaning)
-

**Detailed explanation on back.

Detailed Explanation:

Take a top-down approach when doing all cleaning, especially monthly deep cleans.

Get the Bathing Beauty running with its disinfectant in the tub, and then start by wiping down the ceiling and lights and move down from there, wiping all surfaces using the desired cleaner or disinfectant.

Wiping behind the tub is easier with a basic swiffer mop or similar, with an attached microfiber or similar towel. The cleaner of choice should be sprayed behind the tub and allowed to run down the wall. Lower the grooming table to have easier access.

After cleaning behind the tub, then wipe down underneath the tub and wheel well.

Check all filters on the dryers as well as the inverter filter (do not remove it from the inverter). Hair buildup should be minimal with the van's daily and weekly blow-outs.
